

# 3 Ply Disposable Mask

# 3 Ply Specifications

## Key Features

- High filtration level
- Number of Layers: 3 (3 ply)
- Resistance to breathing: Delta-R 1.7
- Nasal Retainer: Yes
- Shape Lock: No
- Product Shape: Herringbone
- Type of mounting: Rubber band
- Product Size / Weight: 175 \* 95
- Filter: Meltblown
- Material: Spunbond / Meltblown / Non-woven
- Temperature range: -5 to +30
- Relative humidity: up to 95%
- Package Quantity: 50

## Use For

- Use for solid particulates, dust and liquid mists.
- Always follow manufacturer's usage instructions

## Shelf Life and Storage

- 5 years from the date of manufacture
- Store masks in the original packaging, away from contaminated areas, dust, sunlight, extreme temperatures, excessive moisture, and damaging chemicals
- Store in temperatures between -4°F (-20°C) and +86°F (+30°C) and not exceeding 80% RH

# N99 FFP3 LL-518 Respirator

# N99 FFP3 LL-518 Respirator Specifications

## Protection Level

- N99 FFP3 (>99% Filtration)
- 5 Layers
- Independently tested by ICS Laboratories, Inc.
- CE Certified

## Specifications

- Model # LL-518
- Adjustable nose clip for custom and secure seal
- Ear loop design for maximum comfort
- Easy inhalation/exhalation
- Large inside area to prevent skin irritation
- Convenient folding design

# 75% Alcohol Wipes

# 75% Alcohol Wipes

## Ingredients

- Non-woven fabric,
- 75% isopropyl alcohol
- RO pure water
- Quaternary ammonium salt
- Benzalkonium chloride

## Warnings

- Extremely flammable.
- Do not use near fire or high heat.
- Store in a cool dry place.
- Use only under adult supervision.
- This product is intended to be used as a cleaning and disinfecting agent.
- External use only.
- Do not ingest or use near eyes and mouth.
- Call poison control if ingested.
- Do not reuse.
- Dispose of properly after use.

# Disposable Protection Gowns

# Protection Gown Specifications

## Protection Level

- Level 4
- Used in HIGH risk situations
- Prevents all fluid penetration for up to 1 hour
- May prevent VIRUS penetration for up to 1 hour

## Specifications

- Material: PE
- Nonwoven
- Non-Sterile
- Size: UL (unhemmed length), adjustable size

## Applicability

- Pathogen resistance, Infectious diseases (non-airborne), Large amounts of fluid exposure over long periods

## Caution

- Follow proper CDC disposal guidelines after use

## Warnings

- Always follow manufacturer's instructions for proper use. If skin sensitivity occurs, remove gown immediately

# Nitrile Examination Gloves

# Nitrile Glove Specifications

## Features

- Medical use Nitrile examination gloves are suitable in work environments where there is possible contact with bodily fluids, microorganisms, and chemicals. They do not contain natural rubber latex and are an excellent alternative for those suffering from Type I allergies. The powder-free gloves offer high flexibility, tactility, tear and chemical resistance. Nitrile gloves can be designed with a special Nitrile formulation so that they feel and fit like latex and allow full range of motion and excellent flexibility to minimize stress and fatigue.

## Specifications

- LifeLine PPE nitrile exam gloves feature an ambidextrous fit with beaded cuffs for easy donning. They meet or exceed all industry standards for safety and quality, and comply with the following specifications:
- Not Made with Natural Rubber Latex, Powder-Free
- FDA 510(k) Approved for Medical Use
- ASTM D6319 Specification for Nitrile Examination Gloves for Medical Application
- ASTM F1671 Test Method for Resistance of Materials by Blood-Borne Pathogens (Viral Penetration)
- Additionally, all LifeLine PPE chemotherapy-rated nitrile exam gloves meet and exceed ASTM D6978 Resistance of Medical Gloves to Permeation by Chemotherapy Drugs with FDA 510(k) Approved for Medical Use.

# Syringe and Needles

# Syringe and Needle Specifications

## Features

- Comfort, quality and performance are critical. Our ultra-sharp needles are tri-beveled with stainless steel walls for easy penetration. Our needles are color-coded by gauge size for rapid identification
- Excellent slidable performance for medical staff to easily perform clinical injection
- Strong ink adhesive and friction resistance
- Universal fit: Conical lock fittings with 6% taper conforms with international standards. Can be used with any product with a 6% conical lock fittings

## Specifications

- Clearly observe solution and bubbles through transparent barrel
- Easy grip, skid proof plunger
- Skid proof on inner barrel to prevent plunger from sliding
- Single use application
- FDA 510(k) Approved for Medical Use
